Identified barriers to educational achievement

We have identified the following barriers to learning for some of the pupils currently in receipt of Pupil Premium:

- Access to extra-curricular activities - educational experiences such as trips, music lessons and participation in physical activities
- Parental engagement with school - especially regarding completion of homework
- The number of pupils who are in receipt of Pupil Premium and also on the SEN register for cognition and learning
- Behaviour – pupils with specific social and emotional needs which affect their learning
- Attainment gaps between pupil premium children and their peers
- Family circumstances that impact on the emotional literacy of the children.
